SUMMARY

Full-stack CS undergraduate with experience building end-to-end web applications using React, Node.js, Express, and MongoDB. Skilled in developing RESTful APIs, authentication workflows, and responsive user interfaces, with a strong foundation in DSA (Java) and an interest in applying GenAI techniques to real-world systems.

SKILLS

Programming Languages : Java, Python
Web Development : HTML, CSS, JavaScript, Express.js, React.js
Databases : SQL, MongoDB
Version Control : Git, GitHub
Core CS : OOP, DBMS, OS, CN, Data Structures and Algorithms

WORK EXPERIENCE

Backend Developer Intern – NeuxaGlobal, Hyderabad May 2025 – Aug 2025

- Designed and implemented **7+ RESTful APIs** for the **Seller Registration** module of the **Tastezy e-commerce** platform using **Node.js**, supporting a structured and secure vendor onboarding flow.
- Developed core features including **GST/FSSAI/PAN verification, OTP validation, secure document uploads**, and **company & bank detail management** with real-time validations to ensure data integrity.
- Collaborated closely with the **React Native** frontend team to integrate APIs, while gaining hands-on experience with **Git-based** workflows and a **microservice-based** architecture.

PROJECTS

NewsForYou

[GitHub Repo](#)

- Built a full-stack personalized news platform with React 19 + Vite frontend and Node/Express + MongoDB backend, delivering interest-based feeds, bookmarking, and protected routes with JWT cookies.
- Implemented passwordless OTP authentication with Redis-backed OTP storage (10-minute TTL) and BullMQ email jobs, enabling secure sign-in and scalable email delivery via Brevo.
- Designed a news ingestion pipeline that fetches and upserts articles across 7 categories, plus scheduled digest reminders (morning/night) through cron jobs and background workers.

Hostel Flavour

[GitHub Repo](#)

- Built a full-stack hostel meal feedback and analytics platform (**React, Node.js/Express, MongoDB**) enabling students to submit structured ratings and comments across 4 daily meals.
- Implemented **secure authentication and role-based access** using **Firebase** with time-bound submissions, backend validations, and an admin dashboard.
- Integrated a Python **FastAPI microservice**, called from the Node.js backend via REST API, to compute daily insights and generate base64-encoded charts for the admin dashboard.

EDUCATION

2023 – Present B.Tech in CSE | Gayatri Vidya Parishad College of Engineering (CGPA: 8.9/10.0)
2021 – 2023 XII (BIEAP) | Sri Gowthami Junior College (93.6%)

ACHIEVEMENTS

- **Runner-Up** at the Amaravathi Quantum Valley Hackathon; also qualified at the college level for SIH.
- Secured **3rd place** in the Algo-Chase coding competition conducted by GDSC, and solved **300+** DSA problems on LeetCode.
- Content creator with **14K+ followers** gained on Instagram in 2 months through engaging coding content.
